Oregon’s Greatest Wetlands: Wetland Dredge and Fill Permitting Requirements under the 2018 Proposed Revised Definition of Waters of the United States

Federal Permitting Requirements for Wetland Dredge and Fill Activity (Proposed Waters of the United States Revision 2018)

- Nearly all to all wetlands in the area require a federal permit for dredge and fill activity
- A significant portion of wetlands in the area are exempt from federal permit for dredge and fill activity (10% of total wetland area, or at least 10 acres)
- All to nearly all wetlands in the area are exempt from federal permits for dredge and fill activity
